

Publications de Jacques Mugnier

- Germani G., **Mugnier J.**, Dommergues Y. 1984. Influence of pathogenic nematodes on nodulation and seed yield of soybeans in Senegal. *Revue de Nématologie* 7 : 335-340
- Mugnier J.** and Jung G. 1985. Survival of bacteria and fungi in relation to water activity and the solvent properties of water in biopolymer gels. *Applied and Environmental Microbiology* 50 : 108-114
- Le Tacon F., Jung G., **Mugnier J.**, Michelot P. and Mauperin. 1985. Efficiency in a forest nursery of an ectomycorrhizal fungus inoculum produced in a fermentor and entrapped in polymeric gels. *Canadian Journal of Botany*. 9 : 1664-1668
- Mugnier J.** 1986. Dual culture of Ri T-DNA roots and root-inhabiting parasites. *Symbiosis* 2. 31-32
- Mugnier J.** and Mosse B. 1987. Spore germination and viability of a vesicular arbuscular mycorrhizal fungus *Glomus mosseae*. *Transactions of the British Mycological Society* 88 : 411-413
- Mugnier J.** 1987. Infection by *Polymyxa betae* and *Plasmodiophora brassicae* of roots containing root-inducing transferred DNA of *Agrobacterium rhizogenes*. *Phytopathology* 77 : 539-542
- Mugnier J.** and Mosse B. 1987. Vesicular-arbuscular mycorrhizal infection in transformed root-inducing t-DNA roots grown axenically. *Phytopathology* 77 : 1045-1050
- Mugnier J.** 1988. Establishment of new hairy root lines by inoculation with *Agrobacterium rhizogenes*. *Plant Cell Reports* 7 : 9-12
- Mugnier J.** 1988. Behavior of herbicides in dicotyledonous roots transformed by *Agrobacterium rhizogenes*. I. Selectivity. *Journal of Experimental Botany* 39 : 1045-1056
- Mugnier J.** 1988. Behavior of herbicides in dicotyledonous roots transformed by *Agrobacterium rhizogenes*. II. Transport to regenerated shoots. *Journal of Experimental Botany* 39 : 1057-1064
- Mugnier J.** 1988. Transport of the nematicide oxamyl in roots transformed with *Agrobacterium rhizogenes*. *Annals of Applied Nematologia* 2 : 14-19
- Mugnier J.** 1988. Exemples d'études d'organismes parasites des racines dans des cultures de racines transformées par *Agrobacterium rhizogenes*. *Cryptogamie-Mycologie* 9 : 233-238
- Mugnier J.** 1989. Studies on selectivity and systemicity of sterol biosynthesis inhibitors in roots transformed by *Agrobacterium rhizogenes* with *Fusarium*. In *Vascular Wilt Diseases of Plantae*. Springer Verlag 529-535
- Mugnier J.** et Leroux B. 1989. Utilisation d'*Agrobacterium rhizogenes* pour la vigne. *Advanced Biotechnology in Grapevine Breeding Turin* 13 : 65-74
- Mugnier J.** 1991. Les maladies dues à *Pythium*. Dans *Les Maladies des Plantes Maraichères*. p. 455-489 (Messian C.M., Blancard D. & Rouxel F. eds.) Editions INRA. 552 p.
- Mugnier J.**, Chazalet M. et Axiotis S. 1992. La molécule fongicide 727. *Phytoma-La Défense des Végétaux* 441 : 29-32
- Mugnier J.**, Chazalet and Klittich C.J.R. 1992. RPA 400727 : a new systemic fungicide for cereal seed treatment. *Phytopathology* 82 : 1068
- Grosjean-Cournoyer M.C., **Mugnier J.** and Bardin J. 1993. Understanding target populations through molecular biology : identification and quantification. *Opportunities for Molecular Biology in Crop Protection*. BCPC Monograph 55 : 227-228
- Mugnier J.**, Klittich, C., Glouot, J.M., Veà, E., Hutt, J. & Greiner, A. 1993. Triticonazole a new seed treatment fungicide for cereals. Rhône-Poulenc Agro, Lyon, France and Rhône-Poulenc Ag. Co., Research Triangle Park, NC, USA, Abstract in *6th Int. Cong. Plant Pathology*, Montreal, Canada, p. 92.
- Mugnier J.**, Gouot J.M., Hutt J., Greiner A., Chazalet M., Gailliard J.M., and Ingram G. 1993. RPA 400727, un nouveau traitement de semences efficace contre les maladies foliaires des céréales. *Mededelingen van de Faculteit Landbouwwetenschappen*. University of Gent 85 :1411-1419
- Mugnier J.**, Chazalet M., Gailliard J.M., Anelich R.Y. and Gouot J.M. 1994. Control of seed, soil-borne and foliar fungal diseases by triticonazole seed and foliar application. *Brighton Crop Protection Conference-Pests and Diseases* 23 : 325-330

- Mugnier J.** and Grosjean M.C., 1995. PCR Catalogue in Plant Pathology : *Pythium*. Rhône-Poulenc Agro 69263 Lyon cedex 09 France
- Mugnier J.** 1995. Les taches brunes des orges. Une nouvelle approche de diagnostic de l'helminthosporiose : la PCR. *Phytoma-La Défense des Végétaux* 469 : 17-20
- Mugnier J.** 1997. Mycorrhizal interactions and the effects of fungicides, nematicides and herbicides on hairy root cultures. In *Hairy Roots Cultures and Applications* (P. M. Doran ed.) Harwood Academic Publishers Australia 123-131
- Boidin J., **Mugnier J.** et Canales R. 1998. Taxonomie moléculaire des Aphylophorales. *Mycotaxon* LXVI : 445-491
- Mugnier J.** 1998. Molecular evolution and phylogenetic implications of ITS sequences in plants and in fungi. In *Molecular Variability of Fungal Pathogens* (P. Bridge, Y. Couteaudier and J. Clarkson eds). CAB International 253-277
- Mugnier J.** 2000. Diagnostic moléculaire des champignons : intérêt pour la protection des plantes. *Association Française de Protection des Plantes – Sixième Conférence internationale sur les Maladies des Plantes, Tours* : 11-18
- Mugnier J.** 2000. La nouvelle classification des plantes à fleurs. Dans *Pour la science (dossier De la graine à la plante)* : 52-59
- Mugnier J.** 2001. Molecular phylogeny of the fungi based on internal transcribed spacer sequences. In *Mushroom Genetic for Food and Agriculture. Global Network on Mushrooms under the Aegis of FAO*. 115-126
- Mugnier J.** 2001. Co-evolution of pathogenic fungi and grass hosts. In *The Mycota XI Agricultural Applications* (F. Kempken ed.) 359-373
- Mugnier J.** 2003. La diversité végétale. Dans : *Qu'est-ce que la diversité de la vie ? Ed. Odile Jacob* 185-206
